# We go beyond the ordinary and have been for over 125 years

Our **Pet Health Club** is beyond the ordinary, too! We offer our members unlimited vet and nurse visits throughout the year as standard. We love our patients, and we believe in giving them the right care, in the right way and at the right time. We feel that the best way to do this is to empower you to bring them in to see us, or chat to us via a video consult, whenever you have a concern about their wellbeing.

The **Pet Health Club** includes everything from check-ups to vaccinations, hydrotherapy to worm treatment – a caring and comprehensive package for your dog, from their puppy years to the prime of their life.

When your dog turns eight, they'll join our senior club, which includes annual blood and urine tests as well as a blood pressure check, because identifying underlying health conditions at an early-stage results in better outcomes.
